Register online by clicking here or typing the link below into your web-browser

<https://www.backtofrontmaths.com.au/event/y23pdd-20190403-venuetba>

Sessions will include:

- Developmental sequencing – which order to teach in for the best chance of having content stick with kids
- Year Planning – when to teach topics across a year
- Writing inquiry tasks using two different highly-efficient approaches
- Planning time to design tasks, with all tasks shared between participants and input from Tierney on all your tasks

About the trainer:

Tierney Kennedy consults with Education Departments, Mathematics Associations and schools throughout Australia to improve student results. She is renowned for her practical approach and research-based strategies, as well as for significantly improving the NAPLAN and PAT M performance of schools around Australia.

Tierney is also the author of the Back-to-Front Maths series.
